<https://entralnuovo.it>

Collegio Nuovo – Sandra and Enea Mattei Foundation is a **University College of Merit** recognized and accredited by the Italian Ministry of University and Research. It is one of the 20 institutions affiliated with the **CCUM – Conference of University Colleges of Merit**, as well as a founding member and institutional partner of the IUSS – University School for Advanced Studies of Pavia. It was founded in 1978 by entrepreneur Sandra Bruni Mattei to **promote and enhance the talent** of deserving female students, offering them a life and educational experience aimed at fostering their **personal, social and professional growth**. The College hosts 112 female students enrolled at the University of Pavia (and 50 recent graduates in the Graduate Residence), providing them with privileged living and study conditions in a culturally rich, international, stimulating and very comfortable environment. All places at Collegio Nuovo are assigned through a **public competition based on merit** and are **financially subsidized** according to family income.

Located within a 35,000 m² garden in the heart of the **scientific and biomedical campus of the University of Pavia**, and well connected by public transport to the city center, the College offers high-quality daily services and features efficient facilities for study, sports and leisure. It promotes a rich and innovative **cultural and educational program** (including a specific **tutoring** service for first-year students) that complements the university curriculum, supporting the development of personal and transversal skills required in the job market. It also boasts numerous **partnerships** with prestigious academic and research institutions **worldwide**, which about 20% of the students benefit from each year.

Collegio Nuovo is a founding member and institutional partner of the IUSS School for Advanced Studies of Pavia, recognized by the Ministry of University and Research. The IUSS School (www.iusspavia.it) offers Ordinary Courses free of charge to its students — advanced, multidisciplinary programs that run alongside their chosen university degrees. Upon completion of a Master's degree, the IUSS School awards a legally recognized qualification equivalent to a **Second-Level University Master's Degree**, which is issued in addition to the **College Diploma**. The School also offers its students an annual scholarship (€ 5,000 for the academic year 2026-27).

With the goal of further promoting talent and merit and providing greater financial support to its students, **Collegio Nuovo has unified its admission process for candidates enrolling in the first year of Bachelor's or Single-Cycle Master's Degree programs with that of the IUSS School**. The admission tests and related results will therefore be the same, even for those applying only to Collegio Nuovo and not to IUSS. To assign any available spots, the College reserves the right to initiate a selection process for candidates who did not pass the written exam. Candidates who are admitted to the College but not to the Ordinary IUSS Courses may participate in the **NeXus training program**, sponsored by the IUSS School and the Colleges of Merit during academic year 2026–27 (as governed by a subsequent, specific announcement).

***Please note that Collegio Nuovo is a women's college. In the case of male students admitted through the joint Collegio Nuovo – IUSS competition, they will be accommodated in the adjacent Graduates' Residence, with access to all College services, including meals.**

AVAILABLE PLACES

22 places are available for students enrolling **in the first year** of Bachelor's or Single-Cycle Master's Degree programs at the University of Pavia. **Selection is based upon a competition for exams.**

If additional places become available, the Administration Board reserves the right to use the ranking lists from the joint Collegio Nuovo–IUSS competition, also taking into account the balance among academic disciplines.

All places are financially subsidized.

SPACES, SERVICES AND OPPORTUNITIES

The College offers accommodation in **single rooms** with **private bathrooms**, **air conditioning** and **wi-fi**, weekly cleaning service, linen change, and utilities included. A 24/24 front desk and night security service is provided. **Meals** are **prepared in-house** under the College's direct management, with breakfast, lunch, and dinner served daily (7 days a week), except during summer closure and the Christmas and Easter holidays.

Students can choose from a wide range of **exclusive cultural and educational activities** which are reserved to them, including courses in **Career Management Skills**, **Languages**, and **Computer Science**, as well as University of Pavia-accredited courses and public events. The College also provides **individual services in tutoring, coaching and career guidance**. Thanks to its many **international partnerships**, students of Collegio Nuovo can study anywhere in the world—from Japan to the United States—with financial support from the College, which offers **scholarships for study abroad**, including for independent projects.

CONDITIONS OF PLACES AND FINANCIAL AID

The Collegio Nuovo fosters talent and merit by granting **financial concessions to all winning students** on the annual contribution of € 12,500. This amount is already reduced by 25% from the actual costs of training, room and board for the students.

These economic benefits are granted as follows:

a) Collegio Nuovo students who win a IUSS place

All Collegio Nuovo students who win a place in the 2026-27 academic year, called by the IUSS, will receive a € 5,000 Study Award from the IUSS. This award will be paid each year for the entire period of study, unless the students forfeit their IUSS place. **Students with a University ISEE of less than € 30,000 must pay € 5,000 to the College as tuition for the 2026-27 academic year and subsequent years, provided the ISEE value remains under € 30,000.** On the other hand, **those with a university ISEE greater than € 30,000** will have their contribution established based on the [parametric table](#) of benefits available on the College's website, which will be divided into three instalments. Thus, the College guarantees **free enrolment** for those with an ISEE of **less than € 30,000**, as the reduction in the annual tuition fee of € 7,500 is fully covered by the Collegio Nuovo.

b) **Collegio Nuovo students who are not winners or not interested in an IUSS position**

The Administration Board may grant financial concessions to Collegio Nuovo students who are not winners or are not interested in a position offered by IUSS. **These concessions may reduce the ordinary annual contribution of € 12,500 with a grant by up to € 8,000. These concessions are granted based on the University ISEE and any other supporting documentation.** See the parametric table of available facilities on the College's website for more information. The College also reserves the right to offer additional concessions to students from economically disadvantaged families. The annual contribution is spread over three instalments.

- **Two free places, named after the Founder Sandra Bruni Mattei** will be awarded by the Administration Board to contestants **ranked among the top 22 in the competition ranking**. These places can be confirmed in subsequent years. One of these places will be awarded to the candidate with the highest score on the competition tests, regardless of family income. In case of a tie, it will be awarded to the candidate with the lowest ISEE. For the other free place, the ISEE indicator must not exceed € 30,000. Recipients of these places who win the Nuovo-IUSS competition will not be required to pay the IUSS prize.
- **Three free places, thanks to Fondazione Monte di Lombardia, for second-generation Italian female students or daughters of foreign immigrants** who have been ranked amongst the top 22 in the selection process.
- **A Prize of €3,500, named after Alumna Annalisa Giovannini**, is awarded to the top-ranked student who has not secured a place at IUSS and is enrolled on a degree programme in the **field of biotechnology**.
- **A prize of €1,000, offered by the College's Alumnae Association**, is awarded to the top-ranked student who has not been awarded an IUSS place and is enrolled on a degree programme in the humanities with an ISEE of less than €40,000.

All eligible students must apply for the EDiSU Pavia scholarship (<https://www.edisu.pv.it>). If awarded an EDiSU grant, students assigned a free or subsidized seat must pay two-thirds of the grant to the College.

It should be noted that all concessions, including free places, are reserved for those who do not take advantage of financial benefits offered by other Entities, public or private. In case of obtaining scholarships/awards from other Entities, public or private, a percentage defined by the Administration Board is required to be paid. Grants are also subject to compliance with the College's Rules and Regulations and may be revoked by the Administration Board in case of non-compliance with the same.

In 2025, the total contributions from the female students covered 43% of the costs incurred by the Foundation on their behalf, whilst the remaining 57% was borne by the Foundation.

The Collegio Nuovo is also among the Institutions affiliated with **INPS** (former INPDAP, iPOST and ENAM managements) where it is possible to use the residential hospitality grant offered (up to the Master's degree) by INPS to the winners of its specific call aimed at students who are children/superstitious/equiparate of Public Administration employees and pensioners.

[INPS UNIVERSITY COLLEGE COMPETITION 2026-27](#)

This grant, which cannot be combined with any of the benefits offered by the College, entails a significant reduction (even total) of the ordinary annual contribution required by the College. All winners of the INPS announcement who are also winners of the competition for positions at the Collegio Nuovo will be eligible for admission to the College. **Application deadline July 30th, 2026, 12 noon on the INPS website www.inps.it**

Further financial benefits are available up to Master's degree level thanks to agreements with **ENPAM** and **INPGI**, reserved for the children of members of these organisations. For the latest updates, visit www.enpam.it and the College's website.

PLACE CONFIRMATION REQUIREMENTS

According to the Regulations of the Collegio Nuovo, the student's place is subject to annual confirmation based on merit requirements and conditions, including an average of at least 27/30 on university exams (with at least half of the credits passed by July and completed by the successive March 31st), compliance with the "Educational Agreement" and the "Hospitality Agreement." Students must sign the **"Educational Agreement"** with the College. This Agreement provides personalized training in addition to University studies and aligns with the objectives of the CCUM - Conference of University Colleges of Merit, which is accredited by the MUR - Italian Ministry of University and Research (www.collegiuniversitari.it).

Upon completion of the program, students will receive the **"College Diploma"** issued jointly by the CCUM and the College, certifying the training course undertaken at the College. The relationship between Collegio Nuovo and each admitted student is also regulated by a special **"Hospitality Agreement"**.

STUDENTS ATTENDING THE *OPEN SEMESTER* AT THE UNIVERSITY OF PAVIA'S SCHOOL OF MEDICINE

Students attending the ***open semester at the University of Pavia's Faculty of Medicine*** will be welcomed to the Collegio Nuovo to attend the University's program and reconfirmed upon admission to the University of Pavia. They will have access to an **internal tutoring service designed to support them in preparing for the exams** at the end of the *open semester*. If they are not admitted, they may remain in the College for the entire academic year if they enroll in another *related* degree program at the University of Pavia. They will retain their place even if they enroll in courses outside of Biomedical Sciences and may be confirmed the following year if they meet the merit requirements of the College Regulations and pass an internal eligibility exam.

If these conditions are not met, students must leave the College by February 28th, 2027. Their contribution will be calculated in proportion to the period of their stay.

If vacancies remain after that date, the College reserves the right to proceed with the rolling of the 2026–27 competition list or, if necessary, to announce a new competition reserved for those admitted to the University of Pavia's Faculty of Medicine.

All data provided will be processed in accordance with the law on the processing of personal data.
